SYDNEY I. ROBINSON FUR CO.

"HUNTERS' AND TRAPPERS' SUPPLY DIVISION"

277 RUPERT AVENUE
WINNIPEG, MAN.

CABLE ADDRESS
"SIR FUR" WPG.

To all our Hunter and Trapper Friends:

It is with considerable pride that we offer you this Hunting and Trapping Digest. It is the product of over one-quarter of a century of experience providing the requirements of the Canadian hunter and trapper.

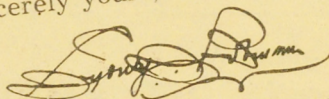

Guns and related supplies is our only retail business and, thanks to the loyal co-operation of hunters throughout Canada, plus our own never-ceasing efforts to render the best personal service we have been able to grow into the position of being the largest seller of guns in Canada.

There is another reason why we have grown so large and the reason is unique. Before you have turned over many pages in this catalogue, you will observe that our prices are considerably lower than is asked for the same merchandise elsewhere. Unlike others, our interests continue far beyond sale of the gun and supplies. That we are Canada's leading buyers of raw pelts is now generally accepted by all. Our Hunting and Trapping Supply Division is a most important adjunct to our ever-growing raw fur business. It is a service we must maintain, with a constant view to always provide the finest in supplies at the very lowest cost to both our raw fur producing friends and the thousands of other sportsmen who assist in providing us with the very large volume that makes low margin selling profitable.

It is no secret that we have been frequently asked by both our customer friends and our worthy competitors just why we seek to merchandise at such a low margin of profit — at prices so low they would not seem to permit a mail order or retail store to survive. Yet we continue to prosper. Yes, because our efforts are rewarded by your repeat orders from our Supply Division if you are the sportsman only, and your shipments of raw furs if you are the professional fur hunter.

With sincere thanks for your continued patronage, confidence and goodwill, which alone make possible continued publication of this digest, and my personal assurance that it is our earnest policy to strive constantly to give you complete satisfaction in each and every transaction and thus merit your confidence, I am,

Sincerely yours,

SIR/D

"FOUR" WAYS To BUY At

SYDNEY I. ROBINSON FUR CO.

"Hunter's and Trapper's Supply Division" \$20.50

You Are Welcome To Use The Plan Most Convenient For You

1 CASH ORDER

(Remittance
Enclosed)

Include CHECK, POSTAL NOTE or MONEY ORDER to the full amount of your order. By doing this you will save paying C.O.D. and collection charges. Be sure to register ALL LETTERS CONTAINING CASH.

2 C. O. D.

Just mail us your order marked C.O.D. You can then pay your postman or express agent when the goods arrive in your town. There will be a small C.O.D. collection fee to be paid.

3 LAY-AWAY PLAN

A ten dollar (\$10.00) deposit or more will reserve your selection of any item in this catalogue. You will receive a receipt immediately showing item reserved, amount deposited and balance owing.

Try to make convenient payments each month. You will find that it will be no time at all until your selection is paid up and delivered to you.

So if you are unable to make full payment now, be sure to send in your LAY-AWAY deposit TODAY. In this way you will be sure of saving many dollars, and you will be assured of having the gun or other equipment WHEN YOU WANT IT. When ordering your rifle or shotgun, ask us to reserve ammunition and general hunting accessories for you.

**LAY-AWAY NOW — GUARANTEE DELIVERY
NO INTEREST TO PAY — NO CARRYING CHARGES
OUR ADVERTISED SALE PRICE IS ALL YOU PAY**

4 TRADE-IN

Yes! Why not Trade-In your old used gun. It is likely worth considerable money on the new equipment you have always wanted. All Trade-In guns are valued by us at their estimated resale price. So you are almost certain to be well pleased with our liberal allowance.

Just forward your gun to us express collect. We pay the incoming shipping charges. DO NOT write us describing the gun for we CANNOT give an estimate in this way. We must be able to inspect your gun before giving a valuation. Pending your approval of our valuation, your new selection will be held aside for you. If our valuation does not meet with your approval, your gun will be immediately returned to you at your expense.

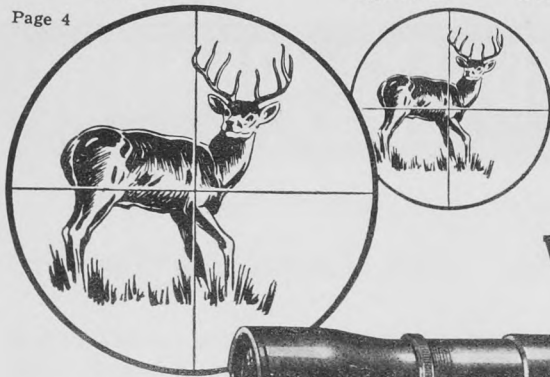

JUST FOLLOW THESE SIMPLE STEPS

A—Ship or bring your Trade-In gun to our head office—Sydney I. Robinson Fur Co., Winnipeg.

B—You will promptly be notified by us, as to the value of your TRADE-IN gun.

C—After you approve our valuation, just instruct us how you wish your new merchandise delivered. You may wish to send in the balance of money to complete payment, or you may prefer to have the new goods sent to you balance C.O.D. or you might like to leave your trade-in credit with us as a deposit on our "Lay Away Plan".

SHIP YOUR TRADE-IN GUN TODAY

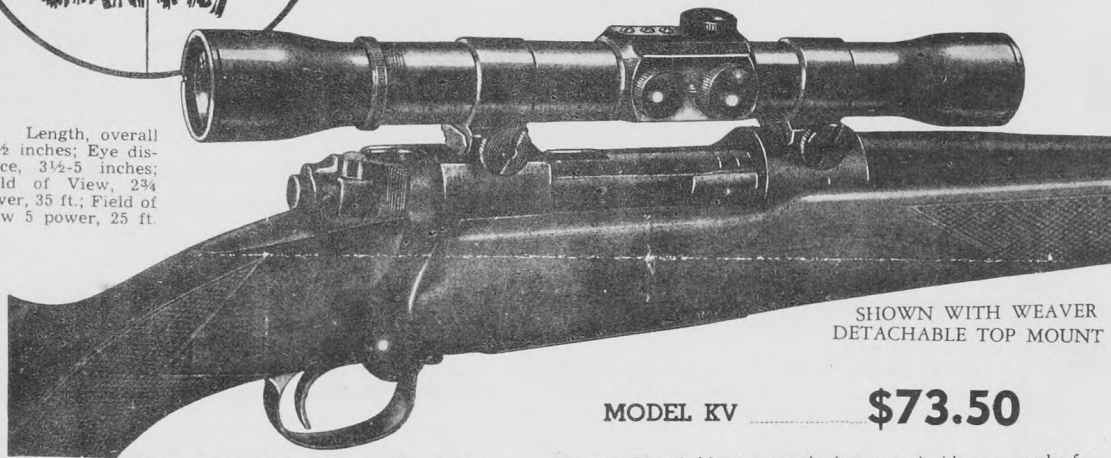

Length, overall 11 $\frac{1}{2}$ inches; Eye distance, 3 $\frac{1}{2}$ -5 inches; Field of View, 2 $\frac{3}{4}$ power, 35 ft.; Field of View 5 power, 25 ft.

WEAVER

MODEL KV

2 $\frac{3}{4}$ X TO 5X

VARIABLE POWER SCOPE

SHOWN WITH WEAVER
DETACHABLE TOP MOUNT

MODEL KV

\$73.50

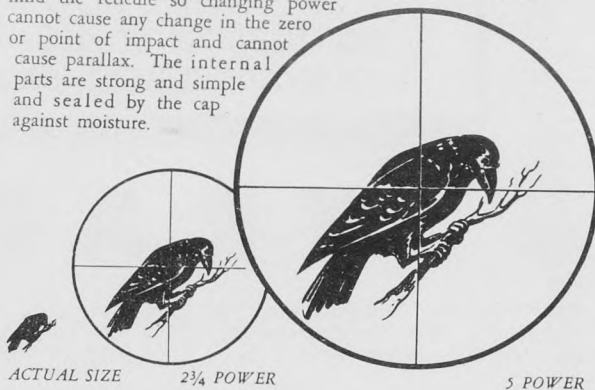

Power of the KV (Variable Power) Scope is changed by a twist of a knurled knob. The two magnifications, 2 $\frac{3}{4}$ X and 5X, are suited to just about every kind of shooting. With the scope set at low power you are equipped for big game at short to medium ranges, for fast running shots, for squirrels in the woods, for general "plinking"—with a turn of the knob the scope can be set for high power and you are ready for that long range cross-canyon shot, for big game in the western open country, for small game and varmints at long range, for targets and deliberate super-accurate shooting.

Micrometer "click" adjustments for windage and elevation are internal and so thoroughly protected they are virtually indestructible from the outside. Each click of the windage or elevation screws give a sight change of $\frac{1}{4}$ " at one hundred yards. Adjustments are positive and accurate, equaling the precision of target scopes and mounts. There is no play or backlash; elevation and windage movements are independent of each other; every click of the adjustment screws, whether up, down, right or left, gives a corresponding and positive sight change on the target. Accuracy and dependability are guaranteed.

The extra large objective lens gives needlesharp definition of the target with brilliant illumination at 5X as well as 2 $\frac{3}{4}$ X. The lens system is highly corrected, showing sharp detail right out to the edge of the field. Optical performance is unsurpassed. All lenses are coated and are finely ground and polished. Years of scope making experience have given the KV the same high quality optics as found in all other Weaver K Model Scopes.

POWER CHANGE

Change in power in the KV is accomplished by changing the magnification ratio of the inverter lenses. These lenses are behind the reticle so changing power cannot cause any change in the zero or point of impact and cannot cause parallax. The internal parts are strong and simple and sealed by the cap against moisture.

ACTUAL SIZE

2 $\frac{3}{4}$ POWER

5 POWER

KV SCOPE TURRET

Shown with protective caps removed from power change knob and from windage screw. Caps prevent tampering or accidental change, keep out moisture. The scope may be used without the small cap, however, when tightened the small cap securely locks the power change knob and prevents accidental change or movement from continued recoil. Elevation and windage adjustments are click type; each click gives a change on the target of $\frac{1}{4}$ " at 100 yards, $\frac{1}{8}$ " at 50 yards, $\frac{1}{16}$ " at 25 yards, $\frac{1}{2}$ " at 200 yards, etc.; knobs are equipped with graduated discs that can be set at zero after sighting in. The knobs can be returned accurately to any former setting so readings can be obtained for different ammunition, different ranges, or different rifles. Accuracy and dependability of adjustments guaranteed.

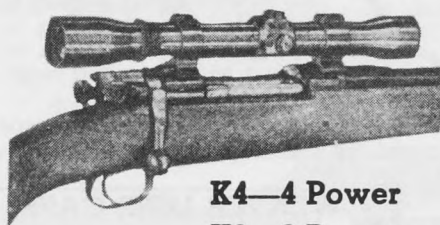

K.&J. Scopes Mounted Free

When You Purchase Both SCOPE and RIFLE From Us!

Yes—Another Sydney I. Robinson Special Service to its customers—When you purchase your Rifle Scope, and Mounts from us, we have our expert gunsmiths instal and sight the scope at no cost to you. If you purchased your rifle from us some time ago and now wish to order a scope installed, we will still have the work done for you at no charge.

Of course you are welcome to order Scopes to be mounted on your own rifle. For guaranteed satisfaction we strongly recommend that you forward your gun to us at 277 Rupert Ave., Winnipeg, and we will have the work done for you, usually within 2 days. In this case, the charges are as follows to mount our Scopes on your high power rifle **\$4.50** or on your .22 calibre rifle **\$3.50**

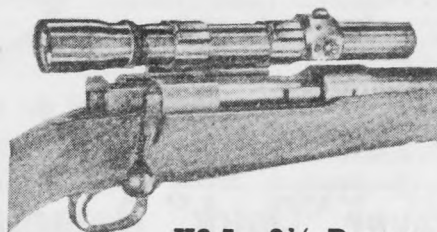

K4—4 Power

K6—6 Power

For nearly all long range shooting the K4 is ideal. For big game in open country where long shots are the rule, for small game shooting, for fine work with .22 calibres, the K4 is perfect. It has enough magnification for long shots but not too much for easy off-hand shooting.

Specifications: Blued steel tube of 1 inch diameter. Overall length 11¼ in. Weight 9½ oz. Eye distance 3-5½ in. Field of view at 100 yards for the K4 is 31 feet and for the K6 is 20 feet.

K4-4 Power\$57.50 K6-6 Power\$62.00

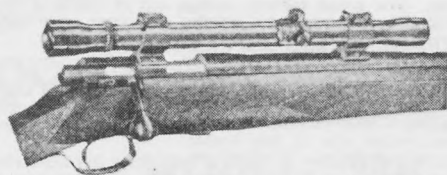

K2.5—2½ Power

For most big game hunting and for general use on all rifles of .22 calibre and up, the K2.5 is preferred. It gives accuracy and ease of aim unattainable with any metallic sights and still allows very fast off-hand shots at running game, in bush or open shooting.

Specifications: Blued steel tube of 1 inch diameter. Overall length 10¾ in. Eye distance 3-6 in. Weight 8½ oz. Field of view at 100 yards is 43 feet.

K2.5 2½ Power\$48.00

J2.5-2½ Power—J4-4 Power

For general shooting, for big game, and for small game, the J2.5 is usually preferred. It is fast and easily used on running game. It is the sight to use for squirrels and for other small game where the range is not extreme and when much of the shooting is done off-hand.

Specifications: Field of view at 100 yards for the J2.5 is 37 feet and for the J4 is 26 feet.

J2.5 Scope\$28.75 J4 Scope\$35.25

B4-4 Power—B6-6 Power

A low-priced Weaver Scope for rifles of light recoil, .22 rim fire, and similar calibres. Achromatic, incorporates the latest optical improvements. Model B Scopes are limited to use on light recoil rifles because they are used at relatively short distance, about two inches from the eye and not because of any lack of strength. They have the built-in sturdiness which is characteristic of all Weaver Scopes.

Specifications: Field of view at 100 yards for the B4 is 30 feet and for the B6 is 20 feet. Weight including N Mounts 6½ ozs.

B4 Scope with mount \$12.75 B6 Scope with mount \$16.50

RANGE FOCUS ADJUSTMENT

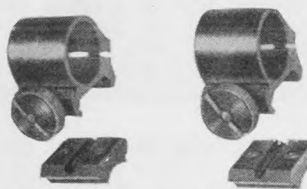

The rear ring is graduated for ranges of 50 feet to 1000 yards, the front ring locks the adjustment. Lens movement is straight-line, non-rotating, and will not change the point of impact of the bullets. For hunting, the adjustment is set at some intermediate range so the scope is always well in focus for all practical distances and no adjustment is necessary in the field. For target shooting or shooting at a definite distance, the focus is set at the correct range.

SPECIFICATIONS

Tube, blued steel—diameter . . . 1 in.
 Eye-piece—diameter . . . 1.355 in.
 Length, overall . . . K8, 15 1/4 in. . . K10, 15 7/8 in.
 Eye Lens aperture . . . 1.255 in.
 Eye Distance . . . 3.5 in.
 Field of View . . . K8, 14 ft. . . K10, 12 ft.
 Weight . . . 14 oz.
 Objective Lens—Focusing, non-rotating, graduated from 50 ft. to 1000 yards, aperture . . . 1.340 in.
 Adjustments — Internal Windage and Elevation, 1/4" Micrometer Click.
 Magnification . . . K8, 8 power . . . K10, 10 power

The K8 and K10 were designed for the kind of rifle shooting that requires extreme accuracy—for long range varmint shooting, competitive target shooting, rest and test shooting, sturdy as hunting scopes

Weaver "Quick" Detachable Mounts

Both Weaver Top and Side detachable mounts are an entirely new principle. An accurate V locating surface with an angular welding surface that binds the V's of the base and the upper into a solid, rigid unit. V locating surfaces are the most accurate known and assure perfect precision in retaining the scope to the rifle. Each champ ring has two hardened screws. Experience has shown that two are needed to hold a scope immovable under recoil and rough use.

WEAVER LENS CAPS

Metallic gray plastic with transparent windows; durable and snug fitting. In emergency, scope can be used with caps in position. Made for all Weaver
 Scopes

\$2.75

LO - SWING Scope Mounts

\$25.95

GIVE HUNTING RIFLES GREATEST VERSATILITY WITH HIGHEST PRECISION

When your scope is mounted in a Lo-Swing Mount you get a sturdy, precise scope mounting plus instantaneous use of iron sights in a single, quick motion. The scope merely swings out of the way, yet returns to exact zero. No amount of swinging can alter your zero.

COMPARE THESE ADVANTAGES

With Any Other Scope Mount Regardless of Price

- **LOWEST POSSIBLE MOUNTING**—A Lo-Swing mount puts a scope where it should be . . . as low as possible over the receiver. The swing feature permits this important advantage over any other mount, and gives instant use of iron sights.
- **LATCHED IN LOW POSITION**—A latch is built into the Lo-Swing mount, holding the scope in firing position, but allowing you to instantly swing scope out of the way.
- **INSTANT USE OF IRON SIGHTS**—If your scope is rendered ineffective for any reason, or if an opportunity for a shot occurs at exceptionally short range when a scope makes it difficult to get on the game quickly . . . your Lo-Swing permits shooting with iron sights.
- **TOP CLIP LOADING**—By simply and quickly swinging the scope out of the way, you can clip load instantly . . . then snap the scope back in place again for immediate scope use.
- **RIGID**—The base of the Lo-Swing is form fit for all receivers. Contact points between upper and base mount parts are hardened and ground 60° male and female cones. Recoil is parallel to bore, not affecting scope position. Scope swings about the axis of the mount pivot points keeping scope accurately in line at all times.
- **VERSATILE**—Your rifle becomes much more flexible when you use a Lo-Swing mount. You have all the precision of old-fashioned one-piece mount plus the added advantage of the swing feature.

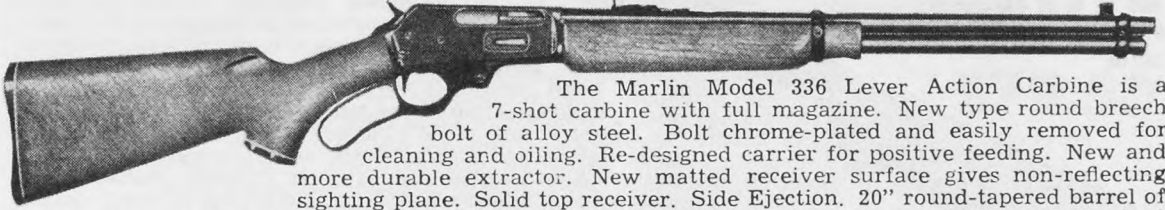

NOTE: Please turn to the top of page 5 and you will note our money saving installation service.

Marlin Guns

*Famous For Dependability
And Accuracy*

MODEL 336C – Carbine

30/30 or 32 Special
Calibre

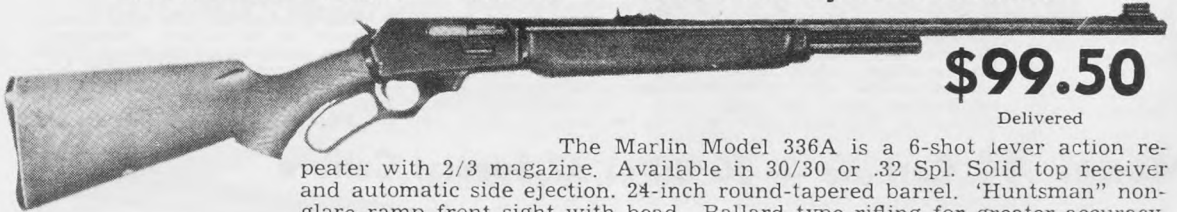

\$79.50

"Huntsman" non-glare ramp front sight with bead. Ballard type rifling for greater accuracy. Full pistol grip butt-stock, semi-beavertail forearm. Low hammer spur for low mounting of scopes. Overall length 42-inches; weight about 6½ lbs.

MODEL 336S – Carbine 35 Remington Calibre

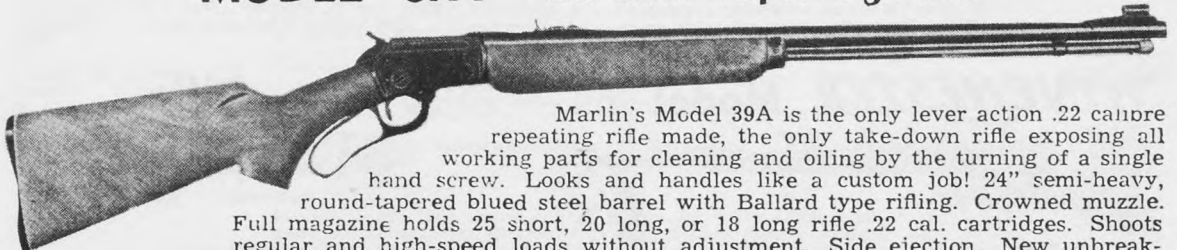

\$99.50

Delivered

For deer hunters and big game hunters who shoot in brush and second-growth timber country, the Marlin Model 336-.35-S will bring results that other big game repeaters will fail to do. Built like a specialized job with 2/3 magazine holding 6 shots of calibre .35 Rem. ammunition. Designed and constructed with all the same fine features of the other famous Marlin sporting carbines and rifles. Automatic side ejection, solid top receiver and low hammer spur permits low mounting of telescope. All exposed metal parts blued. Rocky Mountain rear sight, ramp front sight with bead and detachable hood. Length overall 38", weight about 6¼ lbs.

MODEL 39A .22 Calibre Sporting Rifle

\$79.50

Delivered

Marlin's Model 39A is the only lever action .22 calibre repeating rifle made, the only take-down rifle exposing all working parts for cleaning and oiling by the turning of a single hand screw. Looks and handles like a custom job! 24" semi-heavy, round-tapered blued steel barrel with Ballard type rifling. Crowned muzzle. Full magazine holds 25 short, 20 long, or 18 long rifle .22 cal. cartridges. Shoots regular and high-speed loads without adjustment. Side ejection. New unbreakable coil main and trigger springs. Newly designed visible hammer. Solid top, blued receiver, Ramp front sight, Rocky Mountain rear sight, drilled and tapped for Lyman and other standard receiver sights and for tang peep sights. Low sighting plane for telescope mounting. Full pistol grip buttstock of seasoned black walnut, semi-beavertail forearm designed to prevent canting. Overall length 41", weight about 6½ lbs.

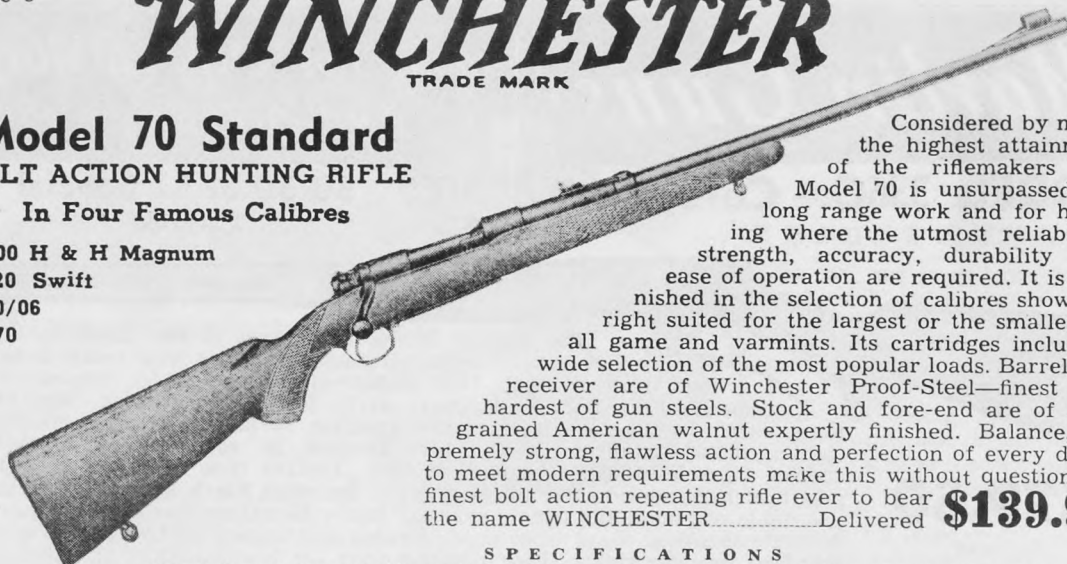

WINCHESTER

TRADE MARK

Model 70 Standard BOLT ACTION HUNTING RIFLE

In Four Famous Calibres

- 300 H & H Magnum
- 220 Swift
- 30/06
- 270

Considered by many the highest attainment of the riflemakers art, Model 70 is unsurpassed for long range work and for hunting where the utmost reliability, strength, accuracy, durability and ease of operation are required. It is furnished in the selection of calibres shown at right suited for the largest or the smallest of all game and varmints. Its cartridges include a wide selection of the most popular loads. Barrel and receiver are of Winchester Proof-Steel—finest and hardest of gun steels. Stock and fore-end are of fine-grained American walnut expertly finished. Balance, supremely strong, flawless action and perfection of every detail to meet modern requirements make this without question the finest bolt action repeating rifle ever to bear the name WINCHESTER. Delivered **\$139.95**

SPECIFICATIONS

Barrel—Round tapered Winchester Proof-Steel in lengths listed below. Bored rifled, chambered and lap finished to highest Winchester standards. Stock—Sporting type pistol grip stock of American walnut with full well-shaped fore-end and grip nicely checkered. Approximate length of pull 13½"; drop at comb 1½"; at heel 2½". Steel butt plate checkered. Action—Cocks on opening lift of bolt. Bolt instantly removable. Famous Winchester Speed Lock. Safety—Three position safety enables you to be ready for a shot at any time. On safe, both firing pin and bolt are fully locked. Intermediate position locks firing pin but not bolt, permitting action to be worked. Magazine—staggered box type with hinged floor plate for convenient access for emptying or cleaning. Holds five cartridges except in 300 H&H Magnum calibre, 4. Sights—Bead front on forged ramp base with removable sight cover; Winchester sporting rear. Receiver drilled for several popular micrometer receiver sights and scope mounts. Equipment—1" swivel bows. Weight—About 8 lbs. in 30-06 Springfield. Overall Length—44½; Barrel Lengths—30-06; 270; 24" 220 swift, 300 H&H Magnum 26".

Model 94 Carbine — 30/30 or 32 Special Calibre

WINCHESTER

TRADE MARK

Probably more deer have fallen to this World-Famous lever action Winchester in the past 50 years than to all other rifles combined. Easy to carry and handle—utmost dependability—have made this rugged, fast operating carbine a universal choice as an ideal timber rifle or saddle gun.

Moderate in price. Weighing only 6¼ lbs., Model 94 comes up in a flash.

Its lever action is so smooth and fast that a simple movement of the finger lever withdraws the breech bolt, ejects the empty shell, cocks the hammer and throws a new cartridge into the chamber. When closed, the action is securely locked by a block of steel which entirely covers the rear of the breech bolt. The visible hammer has a safety notch at half cock—an important feature in timberland hunting.

Furnished in one style only in 30-30 Winchester or 32 Winchester Special calibres. Del. **\$89.50**

SPECIFICATIONS: Barrel—20" tapered of Winchester Proof-Steel. Stock—Straight grip stock and forearm of American walnut. Checkered steel butt plate. Approximate dimensions: Length of pull 13"; drop at comb 2", at heel 2½". Action—Winchester lever action with visible hammer and safety notch at half cock. Magazine—Tubular type holding 6 cartridges. With one in chamber, Model 94 is a seven-shot repeater. Sights—Bead front on ramp with removable sight cover, Winchester sporting rear sight. Overall Length—37¾".

The .22 with the **SHORT SLIDE ACTION** SAVAGE Model 29 Slide Action .22 Rifle

\$59.50

Delivered

Here's one of the most popular ".22" rifles ever built—the Savage Model 29 slide action repeater. The short forearm stroke (slide travels only 1½" in loading and ejecting) permits rapid fire shooting without disturbing aim.

SPECIFICATIONS

MODEL 29—.22 Caliber—Rim Fire—Repeating Slide Action Rifle—Takedown.

Barrel—Round, Tapered, 24" with crowned muzzle. Chambered for .22 Long Rifle regular or high speed cartridges, .22 Long, or .22 Short also may be used.

Action—TAKEDOWN RECEIVER. One-piece bolt easily removed for clearing. Short fore-end stroke ejects and loads. Positive operation. Push button type safety at rear of trigger guard. Tubular magazine: capacity 14 Long Rifle, 16 Long or 20 Short cartridges.

Stock and Fore-end—Selected walnut stock, full pistol grip, corrugated butt plate. Extra long walnut fore-end, grooved.

Sights—Metal Bead Front Sight and open Middle Sight with elevator.

Weight—About 5¾ pounds. Length, over-all 41".

SAVAGE MODEL 24

SPECIFICATIONS

MODEL 24—Takedown—Single Trigger.

Over Barrel—Chambered for .22 Long Rifle regular or high speed cartridges. .22 Short or .22 Long may also be used.

Under Barrel—.410 Gauge chambered for 3 inch factory loaded shells.

Barrels—Length, 24". Rifle barrel "precision" rifled for accuracy. Shotgun barrel bored full choke.

Action—Single Trigger. Low Rebounding Hammer. Separate Extractors. Top lever operates either to the right or left to open action.

Frame—Case-hardened over high polish. Slide button on right side for instant selection of barrel to be fired.

Stock and Fore-end—Selected Walnut, full pistol grip Corrugated butt-plate. Fore-end equipped with special fastening which positively prevents it from shooting loose.

Sights—Ramp Front Sight and Open Rear Sight with Elevation Adjustment.

Weight—About 6¾ pounds. Length, over-all 40"; taken down, 24".

SAVAGE MODEL 24
The Famous *over and under* Gun
.22 RIFLE—.410 SHOTGUN
COMBINATION

\$44.50

Delivered

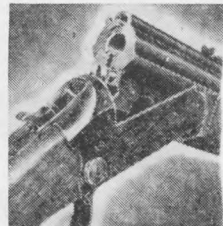

SAVAGE

SAVAGE • STEVENS • FOX Rifles and Shotguns

Here's *one* gun that's ideal for fun, fur or feathers. Use the accurate ".22" rifle barrel for plinking, informal target shooting and small game. Then, with the flick of a thumb, the dependable ".410" barrel (3" or 2½" shells) is ready for flying game, pests or targets.

The Savage Model 24 is as compact, lightweight, streamlined and good looking as it is practical and low priced. See this gun at your dealer's and you'll want it—own it and you wouldn't be without it.

A lightweight, rugged "double purpose" gun. Upper barrel shoots .22 long rifle, long or short cartridges; lower barrel .410 shot shells. Single trigger Button barrel selector permits instant use of either barrel.

MAUSER-TYPE ACTION

Model "D"

BSA

— High Comb With Cheekpiece, Full Pistol Grip

Made by the World Famous English Birmingham Small Arms Co.; these illustrated B.S.A. models are the finest value high Velocity hunting rifles yet produced in these calibres. Not to be confused with Army rebuilt rifles. These rifles are absolutely "New" and fully guaranteed. The special accurate high grade 24" barrel is fitted with ramp and blade foresight element, and plain Rocky Mountain rear sight both of which are readily interchangeable. The action body is drilled and tapped in order to conveniently receive all standard American telescope mountings. The graceful swept back bolt handle is comfortable to manipulate and the side safety is formed to give silent and easy operation. Magazine capacity is five cartridges plus one in the chamber. Genuine French walnut stock Overall length 44". Wt. 8 lbs. Care has been exercised to ensure that all weights of soft point ammunition feed with ease into the chamber while the absence of numerous small parts eliminate frequent causes of breakage. This 270 Winchester calibre is rapidly taking the forefront for its longer range, accurate, effective hitting power.

THE NEW REMINGTON 22 CALIBRE BOLT ACTION RIFLES

No. 510A—The "Targetmaster" Model 510A bolt action 22 single shot rifle has a chromium plated bolt, bolt handle and trigger. The 25-inch long tapered barrel, crowned at the muzzle, is carefully rifled and chambered. Bolt and bolt handle are case hardened for strength. A loading platform makes loading easy and gives straight line cartridge feed, eliminating shaved bullets. An exclusive sear insures crisp trigger pull. Trigger is corrugated to prevent slipping. Stock is of genuine American walnut, with pistol grip, shotgun style checkered butt plate and semi-beavertail fore-end. Sights are of latest Remington design with long sighting radius. Low upturn of bolt handle permits low mounting of telescope.

Exclusive features include double locking lugs, double ext actors, streamlined self-cocking bolt with double cams for easy cocking, firing pin safety indicator that shows red when cocked. Thumb safety is easy to operate, goes on automatically when cocking rifle, locks trigger, shows red dot when ready to fire. Receiver is heavy for extreme strength. Bolt head is encased for additional safety and accuracy. Automatic ejector. Simple take-down. Rifle length overall, 43 inches, taken down 31 inches. Weight about 5 1/2 pounds. Delivered **\$19.95**

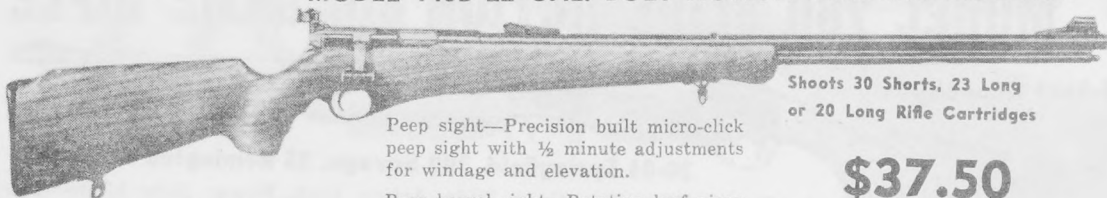

No. 511A—Features of construction same as 510A but with box magazine with capacity of 6 shots. Additional cartridge in chamber gives total of 7 shots. Handles 22 short, long and long rifle cartridges. Magazine is quickly detached for re-loading by pressing magazine thumb catch. Delivered **\$27.95**

No. 512A—Same features of construction as 510A and 511A but with tubular magazine with capacity of 22 short, 17 long, or 15 long rifle cartridges. Weight 5 3/4 pounds. Delivered **\$29.95**

WINCHESTER

TRADE MARK

MODEL 12

\$119.95

Delivered

Above everything else, Model 12 is known for its close, hard shooting—which accounts for its great popularity for wild fowl and pheasant hunting and for trap shooting. Quail, ruffed grouse and skeet shooters, find it fast, have popularized it for their use. In short, so well does this gun shoot, handle and work that for years critical experts representing all branches of shotgun shooting have pronounced it "The Perfect Repeater." It has fine balance, comes up, points and swings with ease for quick, accurate shooting under all conditions. Superior finish, one-piece receiver, closed at the rear—not simply on the top. Short solid breech bolt. Easy dependable action. Positive cross-wide safety trigger lock, in front of trigger guard. Quick, easy takedown.

Barrel—Winchester Proof-Steel. Noted for strength, uniformity and pattern performance. Chambered for 2¾" shells.

Stock—Pistol grip stock and slide handle of American walnut. Approximate length of pull 14"; drop at comb 1½"; at heel 2½".

Action—Lightning fast Winchester jam-proof slide action.

Magazine—Tubular magazine holds five shells. Furnished with magazine plug to reduce capacity to 2 shells.

Safety—Positive cross-lock safety operating horizontally across front of trigger guard.

12 gauge

Heavy Duck Gun MODEL 12

\$139.95

Delivered

The changed wildfowl shooting conditions of today have in most instances sharply increased yardage from gun to game. Meeting the needs of sportsmen shooting under these conditions . . . with the assurance of clean kills—is the Winchester Model 12 Duck Gun. Heavier than the field style, and chambered for 3-inch shells, it is unequalled for long range shooting at geese, brant, ducks, turkey and fox.

SPECIFICATION—Barrel—30" full choke Chambered for 3-inch shells. **Stock**—Pistol grip stock and slide handle of American walnut with rubber recoil pad. Approximate dimensions: Length of pull, with pad, 13⅝"; drop at comb, 1½"; at heel, 2¾"; pitch down, 2½". **Magazine**—Holds 5 three-inch shells. Wooden magazine plug furnished to reduce capacity to 2 shells. **Weight** about 8 lbs. 11 oz. **Overall Length** 48¾".

MODEL 25

Model 25 meets the widespread demand for a well-built, thoroughly reliable, hammerless repeating shotgun with fine handling qualities . . . at a popular price. Of traditional Winchester quality and craftsmanship, its handsome appearance, smooth action and durability have made it highly popular with a host of sportsmen who want an all-around hard-shooting shotgun. Made in 12-gauge only, it is offered with 28" carefully bored barrel with full choke. Chambered for 2¾" shells. Its world-famous Winchester slide action is simple, rugged and lightning fast. Pistol grip stock and slide handle are of American walnut. Magazine holds four shot shells. Furnished with wooden magazine plug to reduce magazine capacity to two shells. Weight about 7½ lbs. Positive cross-lock safety.

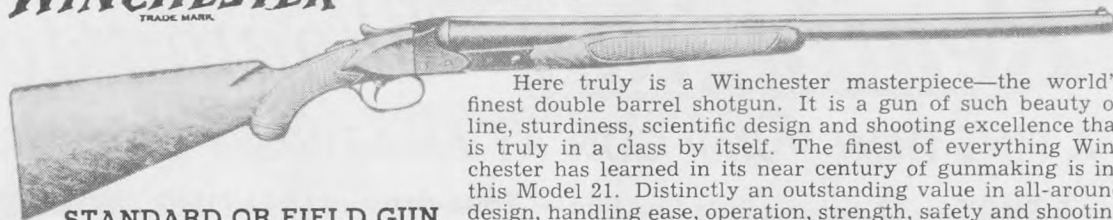

12-Gauge

Visible Hammer MODEL 97
\$95.00

Delivered

Smokeless powder was new when Model 97 dropped its first duck and powdered its first clay bird. Since then, it has kept right on showing other guns how to shoot . . . its popularity high as a wildfowl, turkey, fox and deer gun . . . and as a farmer's favorite. With hammer at safety half cock, gun is securely locked and can be kept loaded with six shells, without strain on the mainspring, yet ready for a shot simply by raising the hammer with thumb. Winchester proof-marked plain barrel furnished in 30" full choke. Chambered for 2¾" shells. American walnut pistol grip stock and slide handle. Length of pull 13⅝"; drop at comb 1¾"; at heel 2¾". Magazine holds five shells. Magazine plug furnished. Weight about 7¾ lbs.

Ventilated rib barrels furnished at extra charge on special order only **\$124.50**

Here truly is a Winchester masterpiece—the world's finest double barrel shotgun. It is a gun of such beauty of line, sturdiness, scientific design and shooting excellence that is truly in a class by itself. The finest of everything Winchester has learned in its near century of gunmaking is in this Model 21. Distinctly an outstanding value in all-around design, handling ease, operation, strength, safety and shooting ability. Barrels interlocked mechanically—no brazing; no extension rib. Result, better shooting. Because barrel chambers are not warped by brazing, they retain their true alignment. Breech is built scientifically to precision fitting and stays snug.

Winchester-developed method of choke reaming improves pattern. Special steels give barrels and frame of exceptional strength, proved under exceptional overload proof tests. Will not shoot loose. Remarkably easy to open and close. An exceptionally hard-shooting gun, giving the finest uniformity of pattern.

Raised matted rib barrels of Winchester Proof Steel made with utmost precision and finest Winchester craftsmanship. Exceptionally strong and bored with supreme attention to perfection of concentricity.

Pistol grip stock and beavertail forearm of selected American walnut. Pistol grip and forearm checkered. Composition butt plate. Length of pull 14", drop at comb 1 9/16", drop at heel 2½". Pitch for 30" barrels 2½". Action—single trigger. Selective ejectors. Sight—Winchester No. 81 metal front sight. Speed lock. Safety—Automatic.

Remington Wingmaster

A FINE NEW PUMP GUN AT AMAZINGLY LOW PRICE

5-SHOT — 12 Gauge Side Ejection — Take-down REPEATING SHOTGUN

MODEL 870AP

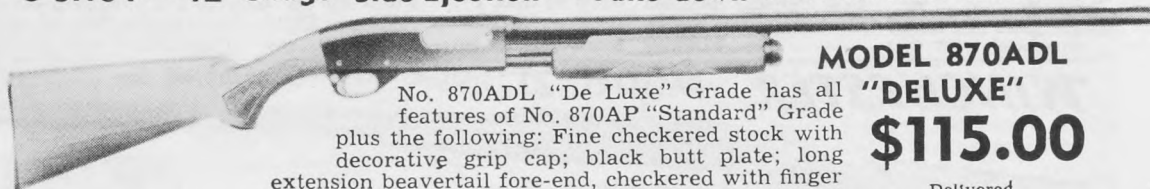

The "Wingmaster" Model 870 is a pump gun of superior quality at a moderate price. The "Wingmaster" offers many startling new features, establishing a standard of performance, value and quality by which all guns of this type will be judged in the future. Attractive appearance—streamlined trigger and positive operation. The barrel and breech block lock together for instant interchangeability of barrels. Double action bars for greater strength and positive operation. The barrel and breech block are locked together for utmost safety. Light snappy trigger pull. Chambered for 2 3/4 inch shells. Side ejection. Cross-bolt safety. Top of receiver matted. Take-down. Hammerless. Solid breech.

"VARI-WEIGHT" PRINCIPLE—Now for the first time, you can have three guns in one. The "Wingmaster" Model 870 (12 gauge only) is furnished with both a 3-shot 12-oz. steel "Vari-Weight" plug and the regular 3-shot wooden plug at no extra charge. By varying these plugs you can have (1) A light weight 5-shot capacity gun (about 7 lbs.) without any plug, (2) A light weight 3-shot capacity gun (about 7 lbs.) with the wooden plug, (3) A medium weight 3-shot capacity gun (about 7 3/4 lbs.) with "Vari-Weight" plug. 28-inch barrel.

Savage—and only Savage—offers you two smartly streamlined automatic loading shotguns—each model exactly fitted for your kind of shooting. For use in the blind and for shooting high flying ducks and geese, Model 755 Standard has added weight to reduce the recoil from highest velocity loads. For upland game hunting, you'll want the lighter, easier carrying, quicker pointing Model 775 Lightweight.

MODEL 755 — STANDARD WEIGHT

Barrel—Plain round barrel. Special alloy steel. Chambered for 2¾" factory loaded shells. 12 gauge, 28", Full.

Action—Hammerless, automatic loading. Barrel locked to bolt during recoil. Friction ring adjustment for light and heavy loads. Cross bolt safety at rear of trigger guard. A magazine plug furnished with each gun at no extra charge to reduce maximum capacity of gun to three shots.

Receiver—Solid breech matted in line of sight. Receiver artistically decorated on sides.

Stock and Fore-end—Selected walnut, checkered. Full pistol grip stock, fluted comb—length 14", drop at comb 1½", at heel 2½". Corrugated butt plate.

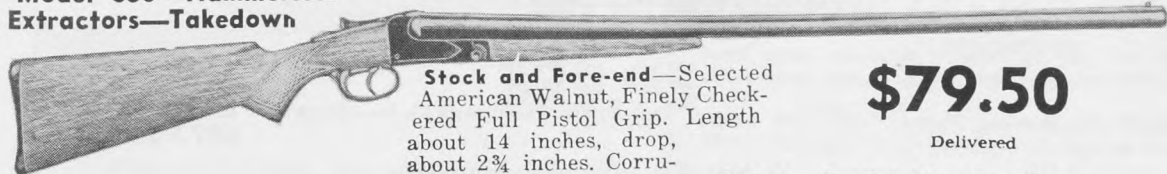

Weight—12 Gauge about 8½ pounds; down, 33¼".

Length over-all, 48½"; taken

MODEL 775 is the same as Model 755 above, except that it weighs approximately a full pound less, achieved through the use of an astonishingly light but tough metal in constructing the receiver of the gun. Length, overall —48½"; taken down, 33¼".

RIFLE CASES

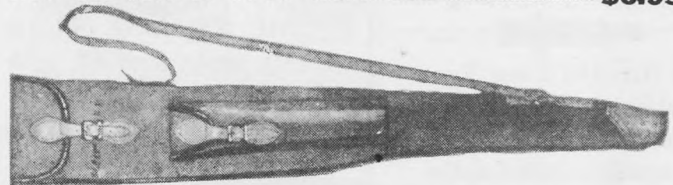

A Beautiful and handy rifle case. Made of plastic outside, with a heavy wool lining inside to absorb any shock and eliminate marking of the stock. Perfect for rifle storage, and when travelling.

RZ1—For guns up to 41" **\$5.75**

RZ2—For guns 41" to 45" **\$6.25**

IDEAL FOR RIFLES EQUIPPED WITH SCOPES

RZ3—For guns 45" to 50" **\$6.95**

This Canvas Rifle Case is made of specially prepared double texture material of fine weave, which has a water-proof rubber centre bonding. They have durable plastic binding, and russet top grain leather muzzle caps, handles, straps and trim. Beige color. For use with guns where the owner wishes to carry the gun made up or where the gun cannot be taken down.

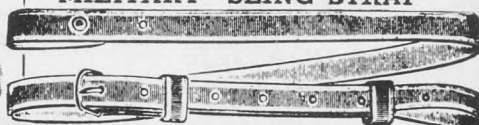

R1—For guns up to 41" **\$3.95**

R2—For guns 41" to 45" **\$4.50**

R3—For guns 45" to 50" **\$4.95**

RIFLE SLINGS

"MILITARY" SLING STRAP

Regulation! Strong, sturdy and dependable. Its two sets of claw hooks permit very fine and speedy adjustments in length. This type of sling is particularly adapted for use with the heavier target rifles and is a great favorite with men accustomed to the regular U.S. service rifle. It is recommended to riflemen wishing a particularly sturdy, reliable and foolproof strap. 1 1/4" wide.

Delivered **\$2.95**

"ONE PIECE" ADJUSTABLE SLING STRAP

A very serviceable and inexpensively priced item for the man who wants a combination carrying strap and adjustable sling yet who does not feel the need of its being speedily detachable. 1" wide.

IDEAL RELOADING TOOLS

These tools are made in such a way to produce professional Reloaded shells by an amateur. Each shell is uniformly loaded and will give the same accuracy as a factory load. Each load can be varied to do the job you want, from varmint shooting to grizzly shooting, and using the same rifle. When ordering a complete reloading set or separate tools, be sure to specify calibre you want to reload. By reloading your own ammunition you save from 50 to 60% of factory cost.

ECONOMY SET

A complete set of tools for reloading popular cartridges at the lowest price available. Included are: Ideal No. 310 Tool complete with dies for performing all reloading operations on a particular cartridge; an Ideal No. 55 Powder Measure; the latest edition of the Ideal Reloading Hand Book; and two Reloading Supplements, Nos. 1 and 2, issued by the American Rifleman Magazine.

Delivered **\$38.95**

DON'T ENVY A GOOD WINGSHOT—BE ONE!

GET A

Poly-Choke

Only the NEW Ventilated POLY-CHOKE

Gives You These 3 Great Advantages

1. More Perfect Patterns 3. NINE Degrees of Choke

2. Reduced Recoil

WITH A TWIST OF THE WRIST

"You'll get more game and save your shoulder with the New Ventilated Poly-Choke!"

You'll be a better shot and shoot in comfort when your favorite "single" is equipped with the New Ventilated Poly-Choke. With a twist of the wrist—you get instantly nine different degrees of choke, from full to reverse—the exact choke you need for any range, any load. You get stabilized patterns—a killing pattern close-up in the brush or far away in the field. And you get reduced recoil, easier shooting all day long! No extra tubes or tools to carry or lose.

IN ORDER TO HAVE THE POLY-CHOKE INSTALLED ON YOUR SHOTGUN, WE MUST HAVE THE BARREL. UPON RECEIPT OF YOUR BARREL WE WILL HAVE THE NECESSARY WORK DONE WHICH WILL TAKE APPROXIMATELY TWO WEEKS.

Nydar

New

Principle of Sighting

IMPORTANT
When ordering, state whether
for double pump, or
automatic

The new Nydar shotgun sight gives the shooter greatly increased accuracy. It literally puts a "bullseye in the sky" projecting a dot and circle into space. Indicating the exact centre of impact of the shot charge. It helps to determine range of target and is a guide for correct leading.

Nydar is built around precision optics on the same principle so thoroughly proven on aircraft guns during the war. It will mount on any type of shotguns.

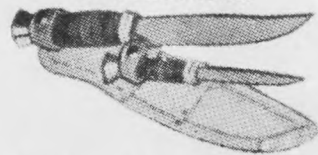

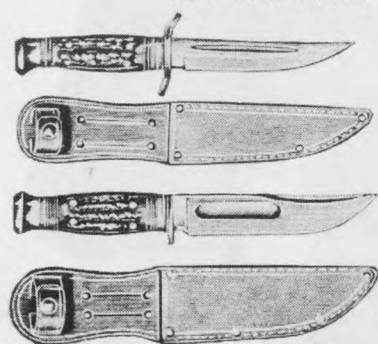

A mounting charge of \$3.75 should be included if you wish us to install the Nydar sight for you

\$34.95 Delivered

HUNTING KNIVES

COMBINATION

'Super Value' Not one, but two knives, neatly fitted into a specially constructed double leather sheath.

The knives include one 5-inch Hunting Knife and one 3-inch Skinning Knife, both featuring perfectly balanced designs. Sharp hand-ground blades of high carbon, electric furnace chrome vanadium steel. Streamlined end knobs permanently lock in place. Leather washers forming the handle are locked in place, can not work loose, are fully protected by exposed edges of tang. Furnished with expertly sewn and riveted double leather sheath, placing each knife in a separate pouch. Real value **\$3.95**

Specially imported from Germany. Made of the finest high carbon German steel, with genuine stag handles. Each one equipped with sheath, in either 4½" blade or 5" blade.

.22 CALIBRE
9-SHOT REVOLVER

Delivered

\$89.50

- sights: Partridge sights. Front with elevation adjustment, rear with windage adjustments.
- Weight: 30 ounces.
- Finish: H. & R. Crown-Lustre Blue.
- Stock: Hand-colored walnut.
- Calibre: Chambered for .22 calibre long rifle, long or short, regular or high speed ammunition.

- Barrel: 6-inch, rifling one turn in 16 inches. Non-glare top surface.
- Action: Single or double action. 9 shot. H. & R. patented Safety Cylinder is positively locked by independent cylinder stop. Cartridge head enclosed in recess affording protection of a solid ring of steel against defective ammunition. Coil springs throughout. Hand fitted.

TOP BREAKING—The "Sportsman's" top-breaking action with automatic ejector has withstood the gruelling test of time. This action also means come time shooting, less time preparing to shoot. You shoot, break, and the brass pops out automatically, leaving the revolver ready for reloading.

Ready for action...four great outboards

West Bend

SYDNEY I. ROBINSON
FUR CO.
SPORTING GOODS DIVISION

Page 40

Outboard Motors

give you all
these features

NEUTRAL CLUTCH AND SHIFT
FULL REVERSE
AUTOMATIC REWIND STARTER
(Starts with one hand)
CUSHION POWER
(Vibrationless Steering)
FILTER BOWL CARBURETOR
SLIP CLUTCH
LIGHT WEIGHT PER HORSEPOWER
SYNCHRONIZED CONTROLS
(Spark and Throttle connected)

... two smooth-running
models with neutral shift

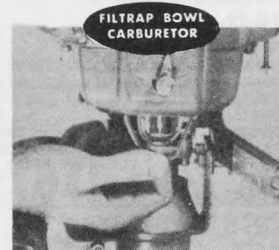

Take a look at the sleek DeLuxe West Bend models illustrated here — the versatile, fast-action "7½" and the always dependable "fisherman 5". No other outboards on the market today offer so much for so little. You get such wonderful features as the neutral shift which lets you warm up at the dock, automatic rewind starter, stabilized steering, synchronized controls and dozens more.

7½ H.P.
TWIN

\$240.00
DELIVERED

5 H.P.
TWIN

\$220.00
DELIVERED

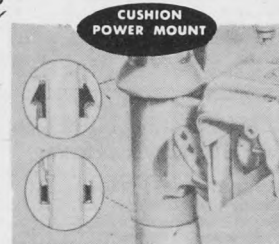

FILTRAP BOWL CARBURETOR — Removes all dirt and water from fuel BEFORE it enters the carburetor. In plain sight. Can be cleaned on a moment's notice. No more clogged fuel jets.

\$470.00
DELIVERED
16 H.P.
TWIN

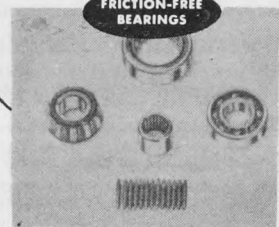

REMOTE FUEL TANK
"Cruising Range" tank holds enough for 2 hours operation. Built-in fuel filter. Self-sealing connection prevents spilled fuel. Gauge on tank.

Forward, neutral, reverse... all with a simple, one-lever control that's right out front within instant reach. Positive "push-pull" engagement with sturdy clutch and rugged gears make the West Bend shift practically foolproof. Synchronized twist-throttle gives you control from trolling speed to a surging 30 m.p.h., all in a twist of the wrist. Here's steady, even-flowing power from a big engine that won't bog down under a load.

CUSHION POWER MOUNT — Absorbs practically all motor vibration. Stabilizes steering and holds the course while you "let up to light up". Lively neoprene is oil resistant — won't rot or harden.

FRICITION-FREE BEARINGS — Enjoy free-wheeling with Hyatt roller upper and lower main bearings, center main and crankpin needle bearings, needle and tapered roller bearings on the lower driveshaft, and ball bearings on the propeller shaft.

**2 H.P.
SINGLE**

\$150.00
DELIVERED

Latest addition to the West Bend line. This peppy 27 pound air-cooled 2 H.P. single is a fisherman's dream. It delivers speeds up to 5 m.p.h., yet trolls to a whisper without so much as a sputter. This small, light-weight motor has the "big motor" features with full reverse, filter-bowl carburetor and a special tension adjustment that gives you "auto-matic pilot" steering.

INCREASE YOUR CATCH! with the Finest Lures

Sydney's SUPER LIQUID BAIT

Positive Animal Lure—Scientifically compounded from animal glands. Bottled, with full instructions for use, including special dropper dispenser. Thoroughly guaranteed. State animals you wish to bait and proper formula will be sent to you, for any of the following:

MUSKRAT
MINK
BEAVER

OTTER
FOX
WEASEL

SKUNK
WOLF

Per Botl. **\$1.25** 3 Bottles Any Asst. **\$3.50**

Paste Bait

These paste baits are made under a patented process, so they withstand rain, snow, sleet, etc.—a feature found in no other decoys. Therefore they are economical to use.

ANIMAL BAIT—For all flesh-eating animals.

BEAVER OR MUSKRAT BAIT—For all water animals.

TRAIL SCENT—For making trails fur-bearers will follow.

KILODOR—Destroys human scent on traps which animals can detect and avoid. Does away with all smoking and scouring of steel traps.

Per Tube **\$1.00** 3 Tubes—Any Assortment **\$2.75**

Genuine Indian-Made Snowshoes

All these Snowshoes are made of the best quality of cow hide and frames of selected, well seasoned hardwood. The handwork is perfect as Indians are employed, who are recognized as experts in this kind of work.

THE MOST MODERN OF ALL FUR STRETCHERS

Quick-Dry and Adjustable

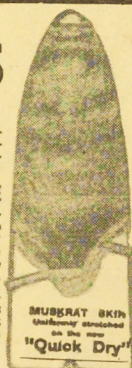

"Quick-Dry" Adjustable Fur Stretchers produce fine, shapely skins, all uniform in appearance, which enables the trapper to secure top-most prices for his prime fur.

These Stretchers are made of high-grade Spring Wire and are adjustable to large, medium or small skins. The elasticity of the wire, in combination with the hinge at the bottom of the stretcher, distributes the tension on the pelt very evenly over its entire length, which prevents the danger of over-stretching. Three prongs in the side clips prevent wet furs from becoming torn.

The pelts dry very quickly, aided by the circulation of air between the fur surfaces. The skins are very easily placed on the stretcher, and what is far more important, they are removed with the utmost facility when dry.

STEVENS Hi-Power Repeating Bolt Action

.22 Hornet Calibre

This lightning fast calibre is rapidly increasing in popularity for its all around usefulness. Although primarily a varmint gun it is ideal for use in hunting coyote and deer or animals of similar size.

- **Barrel**—Special alloy rifle barrel steel. Length 21 inches. Proof tested.
- **Bolt**—New design with latest developments in rifle action construction—lightning fast ignition, short crisp trigger pull—vented for gas escape with protective shield.
- **Sights**—Ramp front and adjustable open rear sight
- **Stock**—Walnut finish — semi-pistol grip corrugated butt plate.
- **Weight**—About 6¾ pounds.
- **Overall Length**—40 inches.

**STEVENS
MODEL 322**

Only

\$49.50

Delivered

Short, compact and light weight with bolt handle closing in recessed niche in stock. This carbine type rifle is ideal for use with saddle scabbard—for guides and hunters on pack trips—for the farmer, ranger or sportsman requiring a low priced utility rifle.

New design bolt and method of assembly has produced an unusually accurate rifle—the 4 shot magazine can be detached and replaced with full magazine with bolt closed and loaded cartridge in chamber. Safety is conveniently located at right rear end of receiver.

Extra 4-Shot Clip.....**\$3.50** each
